Product Owner | Technical Product Manager | AI & SaaS

Product professional with experience building B2B SaaS products from discovery through delivery, alongside hands-on AI product management experience. Skilled in translating business needs into product requirements, collaborating with engineering teams, and using data, automation and AI to improve products and operational efficiency. Technical background across Python, React, SQL, APIs, cloud systems and CI/CD.

Professional Experience:

Nov 2024 – May 2026

Berlin (Remote)

Product Owner & Full Stack Engineer

Arbour

- Owned the end-to-end lifecycle of a B2B SaaS reporting platform, from discovery and requirements through development, deployment and continuous improvement.
- Translated stakeholder needs into product requirements, user stories and priorities for engineering teams.
- Delivered workflow features including duplicate detection and automated report generation, reducing manual processes from hours to seconds.
- Partnered with engineers on feasibility, technical trade-offs, dependencies and rollout, using product insights to guide iterations.
- Built a real-time analytics dashboard with Python, Flask, React and SQLAlchemy and implemented CI/CD automation, reducing manual operational effort by 80%.

Selected AI Product Initiative — FIL | Product Manager | 4–5 months

- Owned product discovery and definition for an AI-powered email assistant, from user research and prioritisation through requirements, wireframes and engineering collaboration.
- Designed workflows for information retrieval, email automation, scheduling, and contextual responses, and tested prompts and AI outputs for accuracy.

April 2023 – Aug 2023

Remote

Business Development Intern

MetalMaker3D

- Conducted user research, market segmentation and competitive analysis to support GTM and customer acquisition.

June 2022 – Sep 2022

Berlin, Germany

Product Management/Marketing Intern

United Innovators

- Supported product operations, cross-functional coordination and strategic initiatives.

Oct 2018 – Dec 2020

Hyderabad, India

Machine Learning Data Associate

Amazon.com

- Analysed user and performance data using Python/Pandas to support product and ML decisions; managed annotated datasets and ML evaluation workflows using AWS S3.

Education:

Feb 2021 – March 2023
Management

Berlin, Germany

Master's International Technology Transfer

Fachhochschule des Mittelstands (FHM)

- Focus: Project management, international business, and product management.
- Thesis: Developed a framework for virtual assistance technology during emergencies, integrating global performance insights.

Sep 2014 – April 2018

India

Bachelor's in Mechanical Engineering

Andhra University

- Final-Year Project — Project Lead: Led the team from concept through design, testing and final delivery, coordinating responsibilities, milestones and technical problem-solving.

Product:

- Product Discovery · Requirements · User Stories · Backlog Management · Prioritization · Product Analytics · Stakeholder Management · Agile/Scrum

Technical:

- Python · React · SQL/SQLAlchemy · REST APIs · Git/GitHub Actions · Azure

AI & Automation

- AI Product Development · LLM/Prompt Evaluation · AI Workflow Automation · Generative AI

Product Tools:

- JIRA, Confluence, Miro, Figma, [Monday.com](https://monday.com)
-

Certifications & Training:

- **CSPO** (Certified SCRUM Product Owner)
- **Additional training:** Generative AI for Product Managers · Data-Driven Product Management · Product Strategy & Roadmapping

Language Skills:

- German : B2
- English : Fluent
- Hindi/Urdu & Telugu :Native
